SUMMARY

Passionate 4th-year Computer Science student with a strong interest in web development and software engineering. Proficient in React.js, MERN stack, and MongoDB, with a strong eagerness to expand expertise in Angular and ASP.NET Core. Experienced in building full-stack applications and integrating APIs. Strong problem-solving abilities, a quick learner, and a team player looking for an opportunity to contribute and grow in a dynamic tech environment.

EDUCATION

Unity University

Bachelor's Degree in Computer Science
2022 - present

SKILLS

- Programming Languages: JavaScript, C#
- Frontend: React.js, HTML, CSS
- Backend: Node.js, Express.js, ASP.NET Core
- Databases: MongoDB, SQL
- APIs & Integrations: RESTful APIs
- Version Control: Git & GitHub
- Eager to Learn: Angular, Cloud Technologies
- Soft Skills: Teamwork, Problem-Solving, Strong Communication

CERTIFICATIONS

- Android Developer - udacity

PROJECTS

Employee Management System

- Developed a full-stack CRUD application using MERN stack.
- Implemented JWT authentication for user role management.

Authentication App

- Built a secure authentication app using MERN stack.
- Implemented features such as Sign Up, Login, Logout, Forgot Password, Reset Password, and Email Verification.
- Used JWT and bcrypt for authentication and security.

ABC book Store

- Created a frontend clone of the popular American Book Center (ABC) Book Store website using HTML, CSS, and JavaScript.
- Focused on replicating the design and user experience of the original site.
- Applied CSS Flexbox and CSS Grid for layout structuring.
- Ensured responsive design, making the website adaptable to various screen sizes.
- Enhanced JavaScript interactivity, adding dynamic elements to improve user experience.
- Gained valuable experience in modern styling techniques and frontend best practices.
